

Greenhill Graduation 201; Video Order Form

For over 15 years, Warren McCoy LLC has captured the special moments at graduation using professional 3 Chip HD cameras. We maintain 3 camera angles at all times, ensuring you get the best shot without the hassle of worrying about batteries or holding the camera for hours. So sit back and enjoy the event, knowing we will capture it for your family! Tired of DVD's? We offer our USB Drive for use in computers and some TV's. To show on a TV, simply plug your laptop into the TV and play! Our secure player works on Mac's and PC's. Our DVD packages will contain 2 DVD's. The first DVD chronicles the graduation ceremony and the second one is a montage of personal interviews with each graduate. So sit back and enjoy the commencement and then share it with your relatives! Don't worry if your battery was charged, or if you are holding the camera steady. You concentrate on the moment and we'll concentrate on capturing it! We have provided this service for many years now, and take pride in the fact that we can do this for the Greenhill community.
