

Greenhill Graduation 2009 Video Order Form

Warren McCoy Productions and staff will again be the professional videographers capturing the special moments at graduations as well as the student's future goals. The video will sold as a 2 DVD set. The first DVD chronicles the graduation ceremony and the second one is a montage of personal interviews with each graduate. We will be using multiple cameras to capture the event, so you are assured to a get a great shot of your son or daughter.

We use 3 Chip Broadcast quality cameras, and maintain 3 camera angles at all times. We use 2 wireless microphones as well as connecting into the house audio. Our videos are shot and edited as if they were a prime time television production. So sit back and enjoy the commencement and then share it with your relatives!

You concentrate on the moment and we'll concentrate on capturing it! Don't worry if your battery was charged, or are you holding the camera steady. We have provided this service for well over 6 years now, and take pride in the fact that we can do this for the Greenhill community.
